Application for Master 2 in Data Science

Dear committee,

I am writing to express my interest in continuing my studies at Lebanese University in the Master 2 Data Science program. After completing my Master 1 in Computer Science, I am eager to deepen my knowledge in data science because I believe this field combines technology, mathematics, and problem solving - areas I am passionate about.

During my studies, I developed a strong interest in subjects related to data analysis, machine learning, and statistics. I am motivated to gain advanced skills in these topics so I can apply them in my future career. I am confident that the Master 2 program at Lebanese University will provide me with the right tools and knowledge to achieve this goal.

I am also proud to continue my education at Lebanese University, where I have already built a solid academic foundation. I look forward to learning more and contributing to the program.

Thank you for considering my application.

Best regards,

Omar Chebbo
